## The TAG2000 International LLC Holdings Company

### Mission Statement

Produced 1996 by Alan C. Tan and Adopted 1997 as the Mission of ACS

Revised 4/2003, 11/2003, 1/2004, 2/2004, 9/2005, 1/2007

*"The purpose of this new club that I am starting is to help others in the world of computers and help our new classmates in programs such as Hyperstudio."\**

**ALAN C. TAN, NOVEMBER 1996**

*"The purpose of our organization is to produce quality products and services for computers and everything that we know at reasonable prices while making a small profit."\*\**

**ALAN C. TAN, APRIL 1997**

*"The TAG2000 International LLC Holdings Company will give small businesses the power of computing at a reasonable price... with the friendly help our company has been known for."*

**ALAN C. TAN, SEPTEMBER 2005**

The Mission of the Company is to provide quality products and services in the field of Computer Science and other Technologies in order to support small and medium sized businesses and help them improve their operations. The Company also aims to support the usage of science and technology to support the fine arts, including drama and music. Finally, in support of those two major interests of the corporation's founder, the Company aims to be a good corporate citizen by supporting nonprofit educational and arts organizations which share the same view and ideology of our founder, Alan C. Tan.

The Company will support its mission by embracing the following...

- The Company will provide innovative solutions to give small businesses easier access to technology.
- The Company will provide products for the small business to adopt technology and become more competitive in the global market.
- The Company will provide economical and comprehensive solutions through its businesses.
- The Company will support the community with its human or other resources that aim to educate others in the views our founder had when he founded this Company.
- The Company will conduct its business in a friendly and ethical manner, and will only sell products and services that meet extremely high standards.
- The Company will support its solutions by expanding its horizons in fields related to technology.
